PROFESSIONAL SUMMARY

Software Development Engineer and advanced Information Systems student (Native Spanish / C2 English) with a passion for building user-centric digital products and immersive experiences. Hands-on experience developing maintainable, end-to-end applications using **C# (.NET), Angular, React, and SQL Server**. Dedicated problem solver with a proven track record of transforming business requirements into scalable software.

WORK EXPERIENCE

Full Stack Developer | Trend Ingeniería Srl | 2026 - Present

- Developed end-to-end web applications (**Angular, C# .NET, SQL Server**), ensuring high availability and optimizing system response times.
- Architected and integrated **RESTful APIs** for data synchronization and critical process management.
- Translated business requirements into responsive, high-performing interfaces focused on user experience (UX) and usability.

IT Intern | Municipalidad de Campana | 2023

- Built and optimized UI components using **React.js**, prioritizing interface usability and platform responsiveness.
- Consumed and integrated REST APIs while collaborating in an agile team environment using **GitHub**.

FEATURED PROJECTS

- **Vector-Based Book Recommendation Engine (2026):** Designed and developed an interactive web app (**React, Framer Motion**) that maps reader preferences into a 4-dimensional mathematical vector to compute personalized recommendations. Implemented dynamic UI switching across 8 styles tailored to the story's atmosphere.
- **Enterprise Management System (2025):** Built a custom full-stack software solution (**C#, ASP.NET Core, React, SQL Server**) to automate operational workflows and manage data storage for a tourism enterprise.

SKILLS

Programming & Frameworks: C# (.NET), ASP.NET Core, React.js, Angular, RESTful APIs, JavaScript/TypeScript, HTML5, CSS3.

Databases & Infraestructure: SQL Server, MongoDB, Firebase, Vercel, Git/GitHub, Linux.

Core Competencies & Tools: Object-Oriented Design (OOD), Data Structures & Algorithms, Optimization Logic, Figma (UI/UX), Claude & AI Productivity Tools, Agile (Scrum/Kanban).

EDUCATION & LANGUAGES

- **B.S. in Information Systems** – Universidad del Salvador (*Graduating in Dec 2026*)
- **Languages:** Spanish (Native) | English (C2 Proficiency) | French (B1 Intermediate)
